COMMENTS

With a line-up that includes 1.3 Million Square Feet between Gateway North and Gateway South, **this is one of the strongest and most successful power centers in the country.**

Urban location with suburban amenities, including free at-grade parking.

There is easy access to this center from Exit 15 off of the Belt Parkway.

There are 2,100 new residential units built/planned in the immediate area.

Even though Brooklyn would be the third largest city in the country (if it was its own city), there are remarkably only 3 major retail projects as noted in the aerial.

What makes the Gateway retail complex distinct from the other 2 are these unique qualities:

1) Direct access from the major highway in Brooklyn, the Belt Parkway

2) A free and open-air parking lot like the suburbs

3) It has the extra added benefit of drawing customers from Queens as it is very close to the Queens border

4) While people can come from all over Brooklyn, the red polygon represents the primary trade area
